# ABOUT US

We are comprehensive recycling, industry-specific waste management company, focused on sustainability solutions for businesses and corporations. Located in Noida, Uttar Pradesh, we are proudly making a positive difference to the environment in every aspect of its business.

Mubh Ventures Private Limited is an innovative and enterprising waste management company that offers fully integrated solutions for the collection and disposal of waste.

We purchase recyclable commodities, enabling our customers to focus on their core business. Underlying in every relationship, each transaction is a constant commitment to high integrity.

We are a multicultural and diverse organization dedicated to high quality and continuous improvement in our processes.

# Our Mission

Our mission is to keep as much waste from ending up in local landfills as we can

To manage environmental solid waste as a resource and promote sustainability, eco-friendly and cost effective practices through the system of waste reduction using technology and education.

Inspire Indians to move towards reuse goals through innovation and creativity in order to reduce air, water and land pollution.

We strive to help our country conserve natural resources through re-manufacturing of waste to create more meaningful and sustainable items.
